# Experience

## **Software Developer Intern**

May 2019 - August 2019

Larsen & Toubro Infotech Ltd., Mississauga, ON

- Migrated & developed several RESTful API's using MuleSoft: Mule 4 and RESTful API Modeling Language (RAML)
- Designed & implemented a JSON wrapper for existing SOAP web services used by clients to update their customer information
- Conducted unit testing on API's using SOAPUI after coordinating with offshore colleagues to retrieve test data
- Produced experimental solution for next phase of migration project in Python: converting SOAP requests into a RESTful request, calling them & analyzing the result

## **QE Automation Analyst Coop**

January 2018 - April 2018

Royal Bank of Canada, Toronto, ON

- Scheduled automated test builds with Jenkins while maintaining & reforming automation scripts in Python, and regression test cases for an agile project
- Sustained and enhanced internal web application for Automation team using Python & Django, integrated with MongoDB
- Learned basic SOAP UI to create functional tests to analyze web services

# Software

Proficient	Java, Python, git, Microsoft Office, Mule 4, RAML
Intermediate	MongoDB, MySQL, PostgreSQL
Basic	JavaScript, SOAPUI, C, Haskell, Android, Clojure

## Education

# **University of Toronto Scarborough**

2016 - Present

Candidate, Honours Bachelor of Science

- Computer Science Co-op Program, 4<sup>th</sup> Year,
  Specialist in Software Engineering
- Recipient of:
  - Paul Thompson and John L. Ball Entrance Scholarships (\$2000)
- cGPA: 3.41/4.0

#### Skills

## **Agile Development**

Experienced with software development in am agile environment. Acted as the scrum master for an academic project. Worked in an agile environment on the API team at LTI and on the QA team for a web application release at RBC.

## **Web Application Automation Testing**

Wrote automation scripts using Python and Selenium to test a web app developed by RBC. Scheduled and conducted automated tests to verify application was working as intended.

#### **Team Player**

Possesses strong commitment to team dynamic with the ability to contribute and lead at appropriate times. Acquired exceptional collaboration skills through academic & work projects, and sports teams.

#### Relevant Courses

#### **Introduction to Software Engineering**

University of Toronto Scarborough May 2018 – August 2018

Worked in a team to produce a search engine web application. Worked on backend services, specifically the database setup and implementation into the search engine.

## Extracurricular Activities

## **MoveU Crew Member**

Encourage physical activity and healthy living to university students through events and outreach.

#### **Certified Tennis Instructor**

Earned certification at Tennis Canada Instructors course. Coach youth in the Jane/Finch area.
