Experience

Software Developer Coop
September 2018 – December 2018
University Health Network, Toronto, ON

- Developed RESTful and web services in Java using Spring Boot (JAX-RS and JAX-WS)
- Converted legacy code using Hibernate and JPA to implement SOAP web services, into a project using Apache CXF and Spring Boot for RESTful web services now in production
- Produced RESTful web service using Apache Camel, deployed into JBoss Fuse
- Utilized SOAPUI and Postman to test web services
- Attended workshop on Clojure and ClojureScript

QE Automation Analyst Coop
January 2018 – April 2018
Royal Bank of Canada, Toronto, ON

- Scheduled automated test builds with Jenkins while maintaining & reforming automation scripts in Python, and regression test cases for an agile project
- Sustained and enhanced internal web application for Automation team using Python & Django, integrated with MongoDB
- Learned basic SOAP UI to create functional tests to analyze web services

Software

Proficient	Java, Python, git, Microsoft Office
Intermediate	MongoDB, MySQL, SVN, Postman
Basic	JavaScript, SOAPUI, C, Haskell, Android, Clojure/ClojureScript

Education

University of Toronto Scarborough
2016 – Present
Candidate, Honours Bachelor of Science

- Computer Science Co-op Program, 3rd Year, Specialist in Software Engineering
- Recipient of the Paul Thompson and John L. Ball Entrance Scholarships ($2000)
- cGPA: 3.39/4.0

Skills

Agile Development
Experienced with software development in am agile environment. Acted as the scrum master for an academic project. Worked in an agile environment on the QA team for a web application release at RBC.

RESTful Web Services
Developed RESTful services in Java using Apache CXF and Spring Boot. Deployed services into a JBoss Fuse container. Acquired this skill developing web services as a software developer at UHN.

Team Player
Possesses strong commitment to team dynamic with the ability to contribute and lead at appropriate times. Acquired exceptional collaboration skills through academic & work projects, and sports teams.

Relevant Courses

Introduction to Software Engineering
University of Toronto Scarborough
May 2018 – August 2018
Worked in a team to produce a search engine web application. Worked on backend services, specifically the database setup and implementation into the search engine.

Extracurricular Activities

MoveU Crew Member
Encourage physical activity and healthy living to university students through events and outreach.

Certified Tennis Instructor
Earned certification at Tennis Canada Instructors course. Coach youth in the Jane/Finch area.
